

**Directions**

1. Stop at the Intersection of Texas Highway 256 and 70 in Briscoe County. 70 runs south to Turkey.
2. Go north EXACTLY 2.5 miles. You will see a stretch gate on the left of the road. Go through this gate and close it immediately, as there are grazing cattle in the pastures.
3. Turn immediately left (south) and follow the field road to a pipe gate.
4. Go through the pipe gate, close it after you do.
5. Continue south to the next gate (you will see a windmill). Do not go in there, but follow the field road around this second pasture to the right until you see the collapsed house.
6. **Important:** Unless you have a truck with high lift, do not drive past the house or you will get stuck.
7. Follow the field road and go left down into a draw and up a hill to another stretch gate.
8. Go through and just about 100 yards you will angle back around to the right.
9. The cemetery is right there, about 20 yards from the field road.

Not to scale.
